Educational Networking with a Purpose and a Plan

Edudaris™ is an educational networking platform with an industry-standard learning management system that interconnects students, educators, college representatives, scholarship providers, and businesses in a safe and secure environment. Edudaris™ is an interactive, educational community which:

- ❖ Provides a platform for all users to establish long-term connections and to seek professional opportunities.
- ❖ Accelerates student opportunities to seek for and apply to colleges and for scholarships by providing a “match” based on information from the student profile.
- ❖ Complements the present **Path to Scholarships®** teacher curricula, student workbooks, the **Path to Scholarships®** career, college, and scholarship planning portfolio, and resources.
- ❖ Provides a customizable, **Path to Scholarships® Career, College, and Scholarship Planning e-Course** and **e-Portfolio** with pre-named tabs/folders and personal file storage space to all users at no charge.
- ❖ Enhances classroom interaction through a learning management system designed for both web-based and blended learning environments that meets industry standards.
- ❖ Gives teachers and administrators the tools necessary to create customized courses, centralize management of learning activities, and track and report student progress.

Membership and use of the Edudaris network is completely free to all users. The learning management system is priced competitively with no long-term contracts or commitments, which provides freedom from servers, firewalls, programming, equipment, software updates, IT staff, and training sessions.

Hosting is provided by Rackspace®, the number one world-class hosting service with bandwidth, security, redundancy, system capacity, backup and usage issues managed automatically with a firewall monitored 24/7.
