Understanding Traumatic Stress: Strategies for Supporting Resilience & Self-Care

Javier Rosado, PhD, Director, Florida State University Center for Child Stress & Health

Staff and professionals who work with children and families impacted by trauma often face emotional challenges that can lead to secondary traumatic stress and compassion fatigue. Participants will gain practical strategies to support children coping with adversity while also caring for themselves. Through a focus on awareness, balance, and connection, the session will highlight approaches that promote resilience and well-being for both children and those who serve them.
