ASSOCIATION FOR MIGRANT EDUCATORS OF TEXAS

October 15, 2023

Dear Conference Participants:

On behalf of the Association for Migrant Educators of Texas, it is my pleasure to welcome you to the City of McAllen and to our 2023 Annual State Conference this November. The conference theme, ***Migrant Education: Portraits of Excellence***, reminds us of the importance of highlighting our achievements, big and small, as we move forward in life.

AMET is a non-profit organization that provides much needed resources to help migratory staff, parents and students across the great state of Texas. We are passionate about providing scholarships, developing students, engaging parents and building the capacity of all. I applaud your participation in our conference, which demonstrates your commitment to improving yourself, and moving in the direction of excellence one step at a time.

I encourage you to make the most out of this invaluable time together. Celebrate together, grow your expertise together and connect with one another. OFFICE OF MIGRANT EDUCATION

To the 2023 Association of Migrant Educators of Texas Conference participants:

Congratulations to your association on planning a conference full of amazing opportunities! Staff at the Office of Migrant Education have had the good fortune to participate in your previous conferences, and we have witnessed first-hand the collaboration and hard work amongst the regional education service centers, the Migrant Education Program (MEP)-funded districts, and the Texas MEP as a whole, to support this annual professional development opportunity for MEP staff, migratory parents, and students.

This year's theme, *Migrant Education: Portraits of Excellence*, is rich with meaning. Excellence is not something that is easily achievable. Excellence in anything, whether it be in a particular subject, sport, art, or skill, takes long years of practice and dedication, with one often relying on and learning from those who have already mastered their craft.

As a national program, the MEP relies on many people, reaching across school district and State lines, lending their expertise to contribute to a migratory child's educational journey. And, in our own way, we are artists that help our students paint their portraits of excellence—by providing them with opportunities and resources so that they can create the masterpiece that is their life.

Use this year's conference to grow as an artist and to hone your craft. Leave inspired to paint that portrait of excellence for every migratory child.

Thank you, conference participants, for working so tirelessly on behalf of our nation's migratory children. Enjoy the conference!

Sincerely,

**TARA

Dear Conference Attendees:

Welcome to the 2023 Association for Migrant Education of Texas (AMET) Conference. The TEA Migrant Education Program is proud to participate in this exciting and worthwhile professional opportunity designed for the migrant education community. You are to be commended for your dedication and passion for improving the achievement and success of all migrant students in Texas.

This year's conference theme is *Migrant Education: Portraits of Excellence*. TEA's strategic plan calls for every child to be prepared for success in college, a career, or the military. This strategic plan was created on behalf of more than five million children in Texas, which includes our migratory students. We at TEA are dedicated to supporting you as educators and parents to ensure that you are well-equipped to meet the unique needs of these students and help them achieve a prosperous future.

We hope that this year's conference provides you with innovative tools, best practices, and resources to continue your work and encourage the success of our students.

Thank you for all you do to make a positive difference in the lives of our state's migratory students and their families. On behalf of TEA, welcome, and we hope you enjoy the conference.

Sincerely,

Mike Morath

Her experiences with migratory families, students, staff across the state of Texas is evident in her history with those she met and made a difference in more ways than one. Wendy is known for her excellent customer service with our local LEAs. Her expertise in ID&R and TX-NGS is beyond reproach. Her commitment to helping districts is evident in the quick way she problem solves, coaches, and offers solutions to those who come to her. One district recruiter, shared, "Wendy always makes us feel that it's OK to ask for help when in need of assistance, no matter how simple or difficult the question may be. She never ceases to amaze me at how quick she can think of a solution. An administrator in a different district quotes, "Ms. Wendy Fort provides exemplary support to our staff, especially our new recruiters, and provides us quick feedback any time we need her assistance. She is helpful, caring, resourceful, and happy to offer service no matter the task. She advocates for our migratory children with superior knowledge and experience. She is a true champion for the Migrant Education Program in Texas and the rest of the country". A former migrant student quoted: "There are only a handful of people that have had a significant impact on my life, and you are one of them. You went above and beyond for me, and I could not have gotten to where I am without your help." Wendy helped her navigate the trenches of high school, leading her to the West Texas A&M University on a CAMP scholarship. Another former student mentioned, "I can honestly say the if it weren't for her and the influence she had on me, I wouldn't be where I am right now." Yet a different former migrant student said, "As a migrant student, college was just a dream for me and seemed impossible to reach. Wendy would explain the importance of education and how it was possible for us. Because of Wendy's knowledge of opportunities for migrant students, I was able to attend the Bert Corona Leadership Institute in Washington D.C.. " In my family, I am the only one who completed high school. Before Wendy's help, my family and I did not have knowledge about the college process. Wendy's knowledge and skills helped me achieve the dream of completing high school and attending college. Wendy has a heart of gold. She always listens to the call, walks with inspiration, and follows up with the necessary service needed to fulfill her role as a servant leader. The migrant world is better because we have had Wendy as a trailblazer.

Having efficient ID&R networks and partnering with these stakeholders ensures "passive recruitment" happens.
